Coral Vine
Antigonon leptopus

Coral Vine

Antigonon leptopus

harvested in:

2

An evergreen climber with attractive green heart-shaped leaves with pink & white flowers. Very attractive along fences and the bees and butterflies love it.
Tender Perennial Climbing Vine.
Zone 7-12. Height 20-40'. G21-30 days.

BLOOMS from Mid Summer to Mid Fall.
SOW directly in garden in sandy soil in full sun, from fall to early spring. Sow seeds thinly and cover with light layer of soil. Requires light. Firm lightly and keep evenly moist. Seedlings emerge in 21-30 days depending on soil and weather conditions.

GARDEN HINTS:
To get a head start, sow seeds indoors about 8 weeks before outdoor planting time. Transplant after danger of frost.

For more info, log on to Dave's Garden.
