

American Beautyberry
Callicarpa americana

Callicarpa americana

Full Sun to Part Shade 1/4" - 4'-6"

BLOOMS are small, but fruit is very showy in Fall.

SOW directly in garden in sandy soil in full sun, from fall to early spring. Sow seeds thinly and cover with 1/4" of fine soil. Firm lightly and keep evenly moist. Seedlings emerge in 10-14 days depending on soil and weather conditions.

GARDEN HINTS: To get a head start, sow seeds indoors about 8 weeks before outdoor planting time. Transplant after danger of frost.
