harvested in:

Dave's Garden "For Gardeners...By Gardeners" <http://davesgarden.com/>

The buds at the lower end of the flower stem bloom first and then proceed sequentially toward the tip which continues to grow and extend over the course of the season. **HH Annuals, Zone 5-10. Height 24-48".**

**BLOOMS** from Late Spring to Early Fall.

**SOW** directly in garden in sandy soil in full sun, from fall to early spring. Sow seeds thinly and barely cover with 1/8" of fine soil. Firm lightly and keep evenly moist. Seedlings emerge in 5-10 days depending on soil and weather conditions.

**GARDEN HINTS:**  
To get a head start, Sow seeds indoors about 6 weeks before outdoor planting time. Transplant after danger of frost.

For more info, log on to Dave's Garden. <http://davesgarden.com/guides/pf/90/28/>
